

### Year 7 Catch up Premium.

Below gives key info for students at ARE and working towards ARE.

It also gives whether they have exceeded or stayed within the ARE band (based on KS 2 starting point)

I have not included students who came in well below and are still well below (3 students)

	Expected + (stayed within ARE band or out)	Exceeded (out of band)	Now at ARE
Maths	16 students (76%)	7 students (33%)	5 students (25%)
English	15 students (71%)	5 student (24%)	4 students (19%)

Commentary:

The focus for literacy has been on reading and inference. There is a whole school focus on Extended writing which will help to move these students to ARE.
